printing
powered by ClimatePartner*

Benefit from the sustainable production of Post-it® Notes. Position yourself as an environmentally-aware company using Post-it® Notes made from PEFC™ certified material in climate neutral production.

All printed Post-it® Promotional Products are climate neutral and PEFC™ certified - no extra charge!

Out of conviction!

Why we are convinced and you should be too?

The aim of climate protection is to counteract global warming caused by people. A hydroelectric power station for the generation of environmentally-friendly energy is supported with the help of Post-it® Notes.

You can effectively enhance your image by showing your commitment on printed Post-it® Promotional Products, e.g. with the wording:

"This product is climate neutral".
